REASONS FOR ALLOWANCE

1. Previously allowed claim 10 and new claims 20-38 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or suggest the Applicants claimed invention. **Independent claim 10 was previously allowed.** The Applicant teaches of an electrophoretic display having a specific electrode and particle color scheme. These features are not taught or suggested by the prior of record. In particular the feature as found in claims 10, comprising an cyan, magenta, yellow, and white colored electrodes as well as white colored particles, are not taught or suggested. Therefore said feature in combination with the other limitations of claim 10 are allowable over the prior art of record. **New claims 20 and 30** are directed to subject matter found in US Patent #6664944 assigned to the Applicant. **The Applicant has filed a Terminal Disclaimer** in view of US Patent #6664944 obviating any double patenting rejections. Ota, Naoyuki, and Saxe each fail to teach of a pair of electrodes having a specific color disposed adjacent said capsule as claimed. Therefore independent claims 20 and 30 are allowable.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
